

Hands-on Workshop on NGS Data Analysis : Powered by GenXFlow™

GenXFlow™, a trademark product of Arqgene, is an integrated end-to-end genomics analysis platform that streamlines the entire NGS workflow—from raw data processing and quality control to advanced downstream analysis and biological interpretation

Highlights

- Comprehensive coverage of NGS fundamentals, including core concepts and underlying principles
 - Practical exposure to automated analysis using **GenXFlow™**
 - Interpretation of results for meaningful biological insights
 - **Key takeaway: “One-week”** free trial access to GenXFlow™ for independent research use
-

Date : 26.09.2026 (Saturday)

Time : 10:00 AM to 4:00 PM

Venue : Technology Business Incubator
VIT, Vellore, Tamil Nadu, India

Course Fee : Rs. 1500/-
